

Rotating Turbo Nozzle fitted on Turbo Lance

NAVADAN TURBO LANCE

Turbo nozzles are shaped according to the flow of water and the working pressure of the high-pressure cleaner used, including the ceramic components.

NAVADAN TURBO LANCES are designed and assembled in Denmark.

KEY FEATURES

- Made with a hard and protective head
- made with ceramic components able to rotate, break up the waterflow
- vibrates the affected surface to knock off stubborn dirt and grime
- lifetime of ceramic components is between 100-200 hours depending on the quality of the water used.
